Summary

Cybersecurity enthusiast with a strong foundation in offensive security and a growing interest in defensive security. I am passionate about continuously learning and expanding my knowledge in the field. Regularly solving labs on TryHackMe, Hack the Box, and Proving Grounds to enhance my practical skills and exposure. Top 1% on TryHackMe [0xD GOD] with extensive experience solving over 200 labs and machines across TryHackMe, HackTheBox, and OffSec.

Work Experience

Penetration Testing Internship | Shadow Fox | Remote, India | June 2024 – July 2024

- Selected among 100+ applications by giving test
- Learned to write reports of VAPT and learned some auditing skill
- Implemented my Penetration Testing knowledge to check certain web application and infrastructure Pentesting.

Trained | Delta Computers | Bharatpur, India | 2023 – Present

- Got an opportunity to train 5 students in the Best Computer Institute of Bharatpur, Rajasthan.
- Helped them start their careers in the field of cybersecurity.
- Solidified their foundations and then taught them VAPT (Vulnerability Assessment and Penetration Testing) skills.

Education

2023-2026 | Maharaja Surajmal Brij University

Bachelor of Computer Application – BCA

2021-2022 | Kendriya Vidyalaya Bharatpur

Class 12 – Commerce with Information Practices (Elective) - Scored 85%

Certifications

- Certified Network Security Practitioner (CNSP) | The SecOps Group | July 2024
- Certified Cyber Security Analyst | CyberWarfare Labs | August 2024
- Cyber Defense | TryHackMe | September 2024

Skills

- **Cybersecurity Skills:** Penetration Testing, Vulnerability Assessment, Web Application Security, VAPT, Report Writing, Auditing
- **Operating System:** Linux (Parrot OS, Kali Linux) , Windows, Basic Knowledge of Active Directory
- **Tools:** Burp Suite, Metasploit, Nmap, Wireshark, Subfinder, etc.
- **Platform Experience:** TryHackMe, HackTheBox, Proving Grounds
